Li Shi-Zhen's Pulse Studies - An Illustrated Guide

Synopsis

Authors Li and Morris have created a focused guide to pulses in the style of Li Shi-zhen, with an emphasis on a thorough understanding of Li Shi-zhen's 27 pulses and typical pulse combinations. The purpose of this book is to give readers a solid feeling for the shape, force, and speed of the pulse and what those various signs might indicate. With many illustrations.

Customer Reviews

I have been Will's student and his knowledge of pulses is amazing. While studying under him I was constantly blown away at the depth of information he could obtain from a person's pulse. His knowledge is far beyond what I learned from any of my other acupuncture teachers regarding pulses. You are bound to learn much that will improve your clinical treatments from Will if you can wrap your brain around the information.

Great diagrams. Organized well. I just received it so haven't gotten through it all, but would recommend for any acupuncturist that has learned pulse diagnosis with the Li Shi-Zhen method popularized by Blue Poppy Press translations.

I Know the autor and commenter, I study pulse all my professional life, and this book is very interesting because describe various funtions of the pulse, not easily find as backround for a pratitioner.

Easy to use and illustrated pulses great book for TCM
