Customer Reviews

Iâ™ve always considered selling physical goods on and especially after I watched testimonials of successful sellers on YouTube. The trouble with that is that they donâ™t quite tell you how to start.

This book has been extremely helpful in giving a general guideline of how the process works and what to expect when getting started. It seems easy enough and the author also provides great advice on the tools to make online selling easy and as streamlined as possible. This is not limited to however as it is laced with a few other goodies you may find useful. This has been a great read.

Very thin. Has only 41 pages and the paragraphs are spaced apart so it is not really even near 41 pages. Some good info but I am not impressed by it's being so few pages, says you will know so much when you are done reading it but it has such a lack of depth from being so few pages. There must be better books and much more in depth than this one. The FBA book is exactly the same way, very thin and not much knowledge base there either.
