Clinical Management Of Binocular Vision: Heterophoric, Accommodative, And Eye Movement Disorders (Primary Vision Care)

Synopsis

In an easy-to-follow format, this text offers an organized approach to the analysis of optometric data, diagnosis and treatment of accommodative and binocular vision disorders. The unique presentation of the material by diagnostic category allows the quick retrieval of information, according to the diagnostic condition. Each condition or diagnosis includes background information, symptoms, signs, case analysis and management options, with emphasis on principles of treatment and treatment alternatives. Case studies at the end of each chapter further emphasize the application to clinical care.
